*Regional Level One Day Workshop  
on  
'Rewiring Pedagogy Through the Lens of Multiple Intelligences'*

**Date: 22<sup>nd</sup> August 2025**

**ABOUT HANSRAJ JIVANDAS COLLEGE OF EDUCATION**

Gujarat Research Society [GRS] established in 1936 founded Hansraj Jivandas College of Education [HJCE] in 1969 and thus made a major foray into the sphere of teacher training. HJCE was a culmination of the foresighted vision of Dr. Madhuri Shah, a nationally and internationally acclaimed academician & the Ex-Chairperson of UGC. The campus has been developed aesthetically and functionally with well utilized space and has a state of art infrastructure that is possible within the given space. H.J. College of Education is one of the best Teacher Education institutions in the country. The college is continuously engaged in activities that benefit all its stakeholders. Today the college offers training to future teachers and administrators with emphasis on creative teaching, research, and harmonious blending of modern technology with Indian values and culture. The college has been re-accredited by NAAC with 'A+' Grade and is granted Autonomous status by UGC.

**ABOUT THE WORKSHOP**

Education demands an approach that caters to the diverse strengths and learning styles of the students. This workshop offers educators a transformative journey into understanding and implementing Howard Gardner's theory of Multiple Intelligences (MI) in their classrooms. Participants will explore how moving beyond traditional teaching pedagogies can unlock the full potential of their students, fostering a more engaging, inclusive, and effective learning environment. The workshop will equip teachers with practical, innovative strategies to design lessons that resonate with various intelligences, promoting deeper understanding and a genuine love for learning.

This interactive and dynamic workshop aims to empower educators with a comprehensive strategy incorporating the theory of multiple Intelligences into their daily teaching practices. Through a blend of engaging activities such as mnemonics, role-playing scenarios, dramatization, humor, and the use of songs, participants will not only learn about various strategies to teach but also experience its power first-hand. The workshop seeks to inspire a paradigm shift in educational philosophy, encouraging educators to become architects of learning experiences that celebrate and leverage every student's unique intellectual profile.
